***Committee discovered incorrect score card errors (lower score than actually shot for hole resulting in DQ)**

Note: As a lesson to all participants in golf competitions a score card that is signed for a lower score than actually shot results in DQ . Also all of those in a group that knowingly ignores any USGA rules during a medal competition will also be disqualified as is your job to be not only your own referee and call penalties on yourself but also those you are playing with to keep the competition fair for the WHOLE field of competitors. Keep this in mind when some of you will be trying out for golf teams. You could have shot a legitimate game of golf and were beat out for a spot on the golf team by someone that did not shoot a true score and not the player or anyone in that playing group called it!! Call this to an official's attention asap to correct the issue. Do not sign an incorrect score card as a player or as a 'marker", you will be disqualified.
